

## Road & Bridge Projects 2023

Some of the following roadway and bridge construction and maintenance activities will be in house projects by county crew forces while other projects will be contracted out. As deemed necessary, other roads and bridges may replace some of the locations mentioned during the construction season. Some of the work may not follow right behind the preceding work due to the scheduling of county forces and the contractor.

Each of the project sites is a construction zone and will be signed accordingly. There may be some inconvenience and possible delays to the traveling public when the work is in progress.

For questions regarding these projects please contact Reno County Public Works at 620-694-2976.
