or Scott Tolley @ 316-641-2257

**RENO COUNTY ECONOMIC DEVELOPMENT
JOB INCENTIVE POLICY**
(Amended and Restated September 6, 2016)

OVERVIEW AND PURPOSE

The Board of County Commissioners of Reno County, Kansas, establishes this amended and restated Economic Development Job Incentive Policy for Applicants (employers) who create new employment within Reno County, Kansas.

When considering requests for incentives pursuant to this Policy, the County will first determine whether granting an incentive primarily serves a public purpose. It is the position of the County that promoting the creation of and sustaining well paying jobs with benefits in the community serves a significant public purpose.

Grants of public monies for economic development will be considered only in connection with job creation and for no other purpose. For example, the County will not pay cash incentives for the acquisition, construction, remodeling or renovation of new or pre-owned buildings or for the purchase of tangible personal property, such as machinery and equipment.

When applying for participation in the County's economic development cash incentive program, the Applicant will be required to satisfy the County that the proposed job creation would not take place but for the payment of cash incentives. An Applicant who has committed to the creation of new employment positions prior to submitting an application for cash incentives or prior to the County's determination of the Applicant's eligibility to receive cash incentives, will not qualify for the payment of cash incentives for such employees.

POLICY DETAILS, CRITERIA AND PROCEDURE

1. In each application for cash incentives, the County, in accordance with the criteria and review process indicated below and subject to the availability of lawfully budgeted funds for said purpose, will determine the Applicant's eligibility and the amount of cash incentives to be offered and paid by the County. When an Applicant has been determined to be eligible for cash incentives for job creation, the following minimum wage criteria and cash incentives per job created shall apply:
 - a. Wages for newly created jobs must meet a starting minimum base wage requirement of at least \$15.00 per hour per job in order to qualify. Jobs paying less than \$15.00 per hour are not eligible.

- b. Jobs paying a starting base wage of \$15.00 per hour or more may qualify for an incentive not to exceed \$500.00 per job.
 - c. Jobs paying a starting base wage of \$18.00 per hour or more may qualify for an incentive not to exceed \$1,000.00 per job.
 - d. Jobs paying a starting base wage of \$21.00 per hour or more may qualify for an incentive not to exceed \$1,500.00 per job.
2. Applicants must create a minimum of 10 new jobs to qualify for the incentives. Any combination of jobs within the specified hourly wage categories will be credited to the minimum number of jobs required. Applications for incentives involving less than 10 new jobs will not be considered.
 3. A Development Agreement setting out the terms and conditions of the incentive shall be negotiated and executed between Reno County and the Applicant. The Applicant will be required to identify its anticipated job creation and a time frame for accomplishing the same in the Development Agreement. The period for job creation and earning an incentive shall not exceed three (3) years following the Effective Date specified in the Development Agreement. The County will consider approval of incentives for job creation identified and committed to by the Applicant in the Development Agreement which are not speculative or conditioned upon the happening of future events.
 4. Jobs shall be understood to be full time employment of not less than forty (40) hours per week. Only persons directly employed by the Applicant for four (4) consecutive quarters qualify the Applicant for payment of an incentive. Persons employed by a third party employment agency, for example, do not qualify.
 5. In order to earn the incentive, all jobs must be sustained for four consecutive quarters and the Applicant must file written documentation accompanied by an affidavit verifying the information is correct. Incentives will be considered for payment when eligibility criteria has been verified.
 6. Under circumstances deemed exceptional by the Board of County Commissioners, the County may consider payment of a portion of the cash incentives for job creation in advance of the time for payment of the same otherwise specified in this policy. Factors to be considered shall include, but are not necessarily limited to, the financial viability of

the Applicant, substantial capital investment in real estate improvements and tangible personal property acquisitions by the Applicant, a commitment to create more than 100 new full-time employment positions, the creation of jobs paying significantly higher wages than prevailing wages in the community, and such other criteria deemed appropriate by the County. The time for remittance of any such advance payment is subject to the determination of the governing body and shall be set out in the Development Agreement. All such advance payments shall be subject to "clawback" provisions, whereby any position of the advance payment which is not subsequently earned pursuant to the criteria set out in this policy and the Development Agreement, will be refunded to the County by the Applicant within thirty (30) days following receipt of written demand for the same by the County.

7. When an Applicant is considering locating in Reno County or when a Reno County firm is contemplating expansion and has contacted the Chamber of Commerce, and before job incentives are discussed with the Applicant, a screening committee will evaluate the Applicant to determine the financial stability of the Applicant, its investment in new or renovated real estate improvements, and the number and types of jobs that will be created, and the anticipated wages to be paid. The County screening committee will consist of a County Commissioner the County Administrator and the County Counselor. The County screening committee may meet and confer with similar committees of other municipalities and such other persons deemed necessary.
8. An Applicant will not qualify for job incentives unless it satisfies the governing body that substantially all of its new hires will come from residents of Reno County, or from persons likely to move to Reno County, or from residents of adjacent counties who reside within 35 miles of the City of Hutchinson.
9. The County screening committee may under unusual circumstances recommend to the Board of County Commissioners that the maximum per job incentives permitted by this policy be exceeded. Such circumstances may include hourly wage compensation significantly exceeding \$21.00 per hour; the creation of new employment in the community which brings diversification to local industry and the labor force; the probability of the Applicant sustaining new job creation over the long term without governmental or tax subsidy either to the Applicant or to the industry in which the Applicant participates.

10. The Applicant must provide satisfactory employee benefits as determined by the screening committee. In evaluating the benefits, the committee will consider the range of benefits being offered and the amounts the employee and employer share in the cost of the benefit. The employee benefit must include, at a minimum, health insurance.
11. Cash incentives will not be awarded if, in the judgment of the County, the Applicant has committed itself to the creation of new employment in Reno County prior to submitting its application for incentives.
12. Based upon the information provided and using established criteria above and such other considerations as the County deems prudent, the eligibility and amount of the job incentives will be determined.
13. The County will require the Applicant to verify in writing that nothing of value was promised or given to the County, its elected officials, officers, employees, or agents in connection with the cash incentives approved by the County.
14. This job incentive criteria will be reviewed periodically by the County Administrator to determine its effectiveness in achieving the economic development goals of Reno County. The County Administrator shall report his or her findings and recommendations with respect thereto to the Board of County Commissioners.

This amended and restated Reno County Economic Development Job Incentive Policy was approved and adopted on the 6th day of September, 2016, by Reno County Resolution 2016-_____.

BOARD OF COUNTY COMMISSIONERS
OF RENO COUNTY, KANSAS
