

Reconstruction of a water well involving deepening the well or replacing, repairing, adding to, or any modification of the well the casing for the purpose of obtaining groundwater.

An individual who constructs, or treats a water well (including alternations to the well casing to install a pitless adapter or unit) must be Kansas licensed water well contractor (or the land owner). Such work must comply with regulations in Article 30 (K.A.R. 28-30-2, et seq.).

Well constructed or reconstructed must be reported on a water well record (Form WWC-5). Wells plugged must be reported on a well plugging record (Form WWC-5P). Completed forms must be submitted to the Kansas Department of Health and Environment, Bureau of Water, Geology, & Well Technology Unit.
